

Moore Hall

A Room with a View ... and More!

With sweeping views of Cedar Creek Parkway and Cedar Crest's beloved Quadrangle, Moore Hall may qualify as the residence hall with the best views on campus. Because of its easy access to one of Allentown's most beautiful parks, Moore Hall also offers you terrific recreational opportunities with great walking and jogging trails — as well as Allentown's acclaimed Rose Garden — only steps away! In the residence hall, you can gather with your friends in the lounge to watch your favorite shows on a large flat screen HDTV. Or you may choose to spend your time next door at the College's Cressman Library, whose proximity makes a late night study or research session both convenient and accessible. When it snows, you will join your Moore Hall neighbors and grab a dining hall tray for a traditional ride down the steep hill behind the hall. After sliding in the snow, you will be happy to return to the warmth of your Moore Hall room and enjoy a warm cup of cocoa.

Each room features a standard twin bunkable bed, desk, chair, closet and bookshelf for each resident, full length mirror, trash can, overhead lighting and blinds/shades for the windows. In addition, a computer lab, laundry room with free washers and dryers, study areas, vending machines and kitchen facilities with refrigerators, microwaves and stove are available. Also, cable and Internet access is available in each room. Wireless internet is available throughout the building. Community televisions are equipped with cable. Bathroom facilities on each floor are shared.

Double room dimensions are approximately 16'2" x 11'3" with windows 132" x 55". Single rooms (112, 114, 212, 214, 312, 314) are approximately 9' x 10'2" with windows 104" x 55".
