

CEDAR CREST COLLEGE

student employment center

The Student Employment Center (SEC) provides on-campus employment opportunities for students to develop career-ready skills for their future profession. Through a series of workshops and regular feedback, student employees will develop the “soft skills” most in demand by employers looking to hire new graduates. Students will be matched, whenever possible, with positions that align with their program of study and professional aspirations. Promotions and increased responsibility year-over-year will enable students to set and achieve long-term career goals.

The SEC supports students in the development of career readiness and competencies set by the National Association of Colleges and Employers. Career readiness is the attainment and demonstration of requisite competencies that broadly prepare college graduates for a successful transition into the workplace.

Students can work a maximum of 20 hours per week in their positions through the Student Employment Center. Students will be able to meet with representatives from different departments that offer employment positions at the Student Employment Fair. Student must bring the required documentation (originals) to campus before they can begin working (refer to Form I-9 for listing).

**These
competencies
include:**

- Written Communication
- Oral Communication
- Critical Thinking
- Teamwork & Collaboration
- Leadership
- Diversity & Inclusivity
- Professionalism
