

# NOTETAKING & STUDY SKILLS

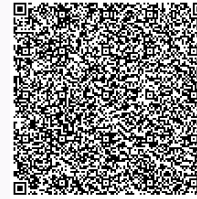

## Notetaking Tips

- Try different styles (Cornell, mind maps, etc.)
  - Match your method to your learning style
  - Skim first, then read in-depth
  - Focus on key ideas—don't write everything
- Use color, symbols, and formatting
  - Note questions as you read
  - Use your own words
  - Create acronyms or shortcuts
  - Pretend you're explaining to a friend
  - Summarize at the end

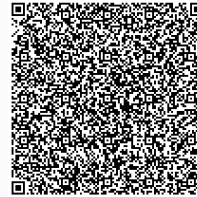

## Study Tips

- Use AI or flashcards for practice questions
  - Draw/label diagrams
  - Make your own practice problems
  - Try different methods per subject
  - Study with a buddy
- Learn key terms and vocab
  - Teach others (or fake it)
  - Avoid studying in bed
  - Ask AI to simplify tough topics
  - Record and listen to topic summaries
