

Student Holds

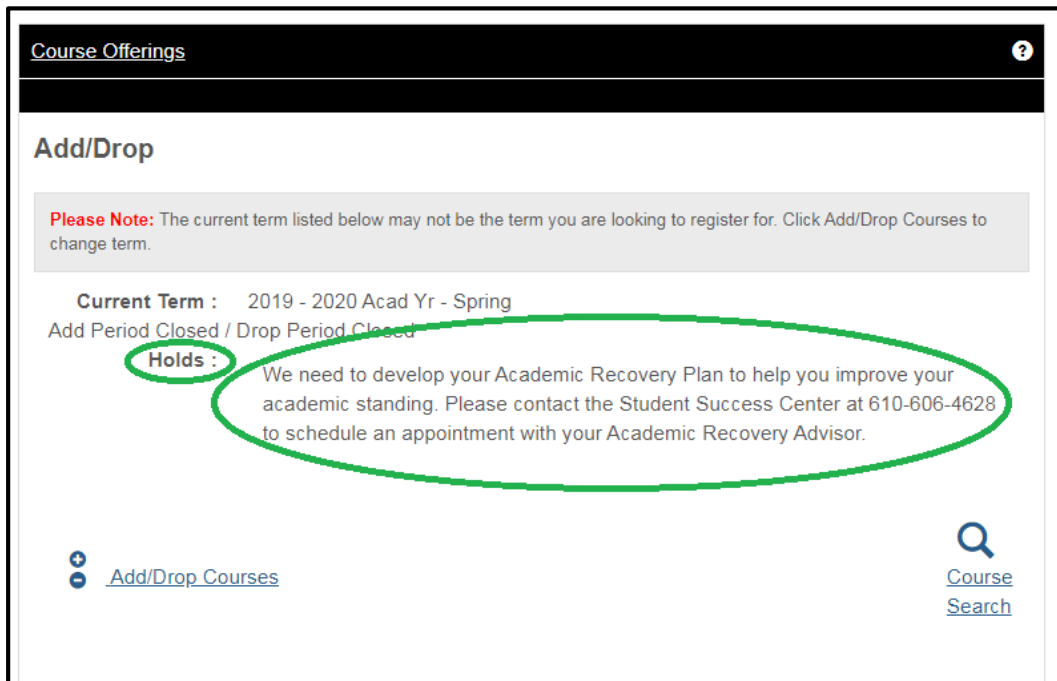

You cannot register for classes if a hold is on your account.

It may take several days for holds to be lifted. Address all holds well in advance of your registration date in order to avoid a delay in course registration.

All holds must be addressed as soon as possible through the following process:

1. Log in to [MyCedarCrest](#).
2. On the homepage, look for the Course Offerings section (on the right side of the screen).
3. In the Course Offerings section, check if a hold message appears.
4. If a hold message appears, follow the provided directions for clearing the hold.

Please note that once the necessary action is completed to address a hold, *it may take several days for the hold to be lifted*.

The screenshot shows the 'Course Offerings' page with a 'Hold' message circled in green. The message reads: 'We need to develop your Academic Recovery Plan to help you improve your academic standing. Please contact the Student Success Center at 610-606-4628 to schedule an appointment with your Academic Recovery Advisor.'
